

Zee S2 Hardware Setup

1. Unpack the HomeTroller Zee S2, Ethernet cable, and AC power supply.
2. Connect the Ethernet cable to your HomeTroller Zee S2 and to a network port on your internet router.
3. Connect the AC power adapter to your HomeTroller Zee S2 to begin the boot process. Allow the unit to boot fully, which will take about a minute. Zee S2 controllers in the US will display a green LED on the front when they are booted up.
