

How to Enable Amazon Cloud Access for Events

Information on enabling Amazon Alexa Cloud access for events.

If you wish to launch events with Google Home, you'll need to enable events for voice. Follow these steps:

1. Edit the event you wish to enable for voice and click the **Advanced Options** button

A blue rectangular button with the text "ADVANCED OPTIONS" in white, uppercase letters.

2. Check the **Amazon Alexa Discovery** check box and click **SAVE**

Event Options
